

pure welcomes achilles

Pure Superyacht Refit Management welcomes the arrival of 55 meter CRN motor superyacht Achilles to Palma de Mallorca where Pure will manage Achilles pre-summer refit including stabilizers removal and complete system overhaul, works to the freshwater and water treatment systems, rudders maintenance, paint works to superstructure, teak decking and interior fine detailing in readiness for the owners family summer holidays

kiss the sky
being opened
up

52 meter Amels motor superyacht Kiss the Sky, seen here having her starboard side opened up to enable the removal and replacement of generators and exhausts, main engines overhaul and also new exhausts, new engine management system.

and operated
on....

Kiss seen here having a new Kohler generator craned into her port side prior to closing and re-finishing. Additional works undertaken in engine room are engine room painting, works to water treatment systems, new freshwater makers and new compressors installed.

plus she gets an
extension!

Kiss the Sky's new edition. A 1 meter swim platform extension being fabricated on site by specialized coded welders and engineers to Lloyds classification.

the new edition at 3 weeks old...

The fully constructed swim platform extension in the next phase of finishing in preparation for fairing and paint continuing the waterline colour scheme of Flag Blue, Cordovan Gold and Vivid Red. The platform consists of 6 sturdy teak grills, removable for storing when underway. Also removable are newly custom designed tender bumper bars to prevent tenders riding up and onto platform and being trapped underneath.

ran & nirvana

Utilising Nic's experience in Americas cup and world class yacht racing, enabled Pure to swiftly organize specific and specialized works to newly delivered 72 foot carbon composite racing yacht RAN, enabling her to continue post delivery shakedown and crew training with her multi talented Americas Cup and Olympic team in readiness for the summer season of Mediterranean regattas.

Pure also recently completed cosmetic warranty works to an award winning 175 foot performance sailing ketch, helping maintain her in continued pristine condition.

office of pure

If you are in Palma, stop by for a chat and a coffee with the Pure team in their offices located within the STP boat facility. Let them take you on a tour of the location and start that all important "PREFIT" the initial planning for your vessels refit requirements.

editorial

[Read Nic's article published in THE YACHT REPORT](#)

Read Nic's editorial on the pros and cons of project management, published in the latest edition of The Yacht Report (issue 105 June 2009), which coincidentally sports a shot of newly launched 60 meter superyacht Cloud 9 on the cover, currently en-route to PURE at our Palma location from Northern France for final completing in readiness for her owners maiden summer cruising.
